

By utilizing OutcomeMD, your doctor is putting your treatment result above everything else—because in the end, your outcome is everything.

FREQUENTLY ASKED QUESTIONS

Where do OutcomeMD's assessment questions come from?

At OutcomeMD, we ask the same type of questions used to establish a baseline and follow results for FDA studies and clinical trials. These questions provide you and your doctor deeper insights into the nature of your current symptoms, and can help define your potential for improvement with possible future treatments.

The questions will be resent to you in the future so you can track and define your results over time.

Is my data secure?

OutcomeMD is HIPAA compliant, and your data is secure.

OUTCOMEMD

Your Outcome is Everything

Track your improvement.

Establish your starting point today,
and follow your progress over time.

TRACK YOUR OUTCOME

OutcomeMD is a secure web-based program that lets you record your symptoms and follow your improvement as it happens.

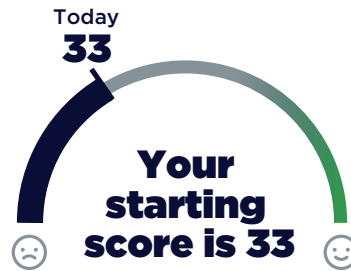

Additionally, it gives you a powerful record of your medical history that you can hold in the palm of your hand. It allows you to keep track of all of your medical data and view your past outcomes so you can become an active, informed participant in your own health.

OutcomeMD makes it easy to follow your results over time.

GET STARTED

- 1 Your doctor sends you a text or email link to your personalized outcome tracker.
- 2 You click the link and enter your information.
- 3 You answer a few assessment questions to set your starting point result.

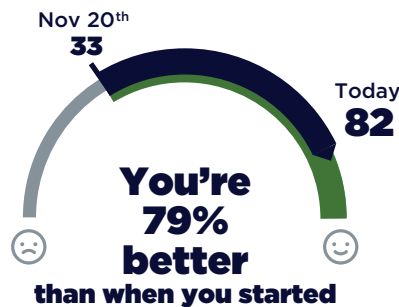

Shoulder Function

Your next survey will arrive on Feb 20th

- 4 In a few months, OutcomeMD will send you the same questions again so you can see how your score has changed from your initial assessment, and follow your improvement.
